HT-15 PNEUMATIC SYSTEM

Efficient, Secure & Direct Transfer of Items

Hamilton's HT-15 point-to-point pneumatic tube system quickly and quietly moves items from one area to another with the push of a button, saving you time and eliminating the need to hand deliver contents. It's ideal for transporting things such as:

- Cash
- Lab samples
- Supplies
- Shipping documents
- Office-to-office paperwork
- Work orders
- Small parts

HT-15 Pneumatic Transport System Features

- Systems available for overhead, underground or combined tubing applications
- Available in 4½ inch and 6 inch tube diameter systems
- Custom units can be made to utilize existing tubing of different sizes
- Anything from small valuables to heavy loads are no problem
- UL Listed
- Runs on standard 120VAC
- No costly interconnecting wiring necessary
- Contents are securely transported within the tube system
- Key locking door provides an extra layer of security and privacy if needed
- Can handle long distance runs up to ½ mile
- Raise the height of the unit with an optional pedestal base

Innovative Design Benefits

- Designed to move items quickly, quietly and easily using a simple one-button operation
- Hamilton's PowerStar Turbine provides reliable performance
- Simple installation with easy access to internal components through removable panels

Applications

The convenience and security of HT-15 pneumatic transport system makes it ideal for a variety of applications:

- Factories
- Financial institutions
- Office buildings
- ATM replenishments
- Laboratories
- Warehouses
- Shipping terminals
- Big box retail stores
